

NORFOLK ADVOCATES FOR CHILDREN

NAC SOCIAL STORY FOR KIDS

Visiting the Norfolk Advocates for Children in Foxboro can be confusing for children. The following social story is meant to help explain the process to children and introduce the people that the child will meet.

There are more people on the multi-disciplinary team (like an Assistant District Attorney, Mental Health Coordinator, Department of Children and Families Investigator, and police officers) that the child will likely not meet. If you as the adult care-giver have questions, please contact the SAIN coordinator.

Begin by saving this PDF file to your computer. Open this file in Adobe Acrobat Reader. Complete each blank text field, save your customized NAC Social Story to your computer and print.

The story should be individualized by adding the name of the person bringing the child (for example: Mom, Dad, Case worker, etc.) to the blank line in the story. The blank line appears several times.
